◀PROJECT BID

Lt. Col. Vic Zilmer, Area Engineer for the Iraq Area Office (left) talks with Shawn Pelowitz (center with uniform) and James "Murphy" O'Riley (with hard hat), along with contractors, during a project overview for the Corps Distribution Center at the Logistics Support Area Anaconda. Three contractors were invited to bid on the job prior to the initial bid. It was a day for them to see the site and ask questions of the Corps staff.

REBUILDING IRAQ ▶

Tania Smith, a civilian with Europe District, inspects a storage bunker with contractors at the the Logistics Support Area Anaconda in Iraq. Smith, along with other Forward Engineering Support Teams from the U.S. Army Corps of Engineers, have volunteered to deploy to Iraq to help the combat engineers rebuild the country. These specialists work as technical advisors to the engineers through the rebuilding process.
