USACE, EUCOM successfully integrate joint engineer team onto 'battlefield'

KAISERSLAUTERN, Germany – In 2009, U.S. military forces saw the activation of the first Joint Force Engineer Command in Afghanistan, which centralized engineering efforts and assets across the theater to facilitate and coordinate engineer operations.

Recently, U.S. forces saw another first for the JFEC concept – the integration of this team of professional engineers from all service branches in support of the U.S. European Command's area of responsibility.

With help from the U.S. Army Corps of Engineers and the U.S. Army Reserve's 416th Theater Engineer Command, EUCOM tested the JFEC's capability outside the war zone during a training exercise. [... Read More](#)

District sets standard for USACE logistics programs

WIESBADEN, Germany - With the receipt of the highest rating for innovation and initiative from U.S. Army Corps of Engineers officials, the Europe District Logistics Management Office is setting the standard for logistics operations across USACE.

The Command Logistics Review Team from the USACE Directorate of Logistics completed an assessment and assistance visit at the district's headquarters in the Amelia Earhart Center May 23 to 27 to ensure logistics personnel are following regulations and doing those things that ensure customers are being well taken care of, said Dale Free, Europe District's logistics management chief. USACE motorcyclists test USAREUR training simulator

WIESBADEN, Germany – After the long winter with little to no riding, motorcyclists find their skills are a little rusty. The U.S. Army Garrison Wiesbaden Safety Office offers a course for novice and experienced riders alike. A motorcycle simulator, located on McCully Barracks in Wackernheim, allows students to climb on board a motorcycle without the risk of injury while brushing up on their safety skills. [... USACE annual health fair fosters wellness

WIESBADEN, Germany - U.S. Army Corps of Engineers Europe District employees were twisting and bending, running and walking, receiving assessments and gaining knowledge - all in the name of wellness.

The district held its annual Health Fair May 3-12 at the Amelia Earhart Center to promote occupational wellness and health.

"I think it's important to promote wellness in the workplace through events like the health fair because so many times people get wrapped up and overwhelmed with the work they have. This leads to stress which can cause health problems," said Rebecca Gray, the district's industrial hygienist, who organized the health fair.
